Devon  
School of  
English.

# ENGLISH & MINING

in the historic mining landscape of Devon & Cornwall

The **Devon School of English** is a long-established family business (founded in 1972) with a reputation for excellence and focussed language training. We have put together a range of English training options for people working in the mining

sector, available on demand and on an individual basis.

The historic mining landscape of West Devon and Cornwall was recognised as a World Heritage Site by UNESCO in 2006. For a time, the region was the world's leading producer of tin and copper and provided most of the raw materials for the early stages of the Industrial Revolution in Great Britain and Europe. The mining tradition continues today with international mining companies extracting or looking for tin, tungsten, and various clays. The internationally famous Camborne School of Mines is located 140 km to the west of the Devon School and visits can be arranged on request.

# Training Programmes

# Bob le Marchant C.Eng,ACSM Mining Consultant

A graduate of the Camborne School of Mines, Bob le Marchant is a European Engineer, a Chartered Engineer, a Fellow of the Institution of Mining and Metallurgy and a Member of the South African Institute of Mining and Metallurgy. He holds a Government of South Africa Mine Managers Certificate of Competency. He has held the legal title of Mine Manager both in Britain and abroad. He is the Chairman of the Cornish Mining Development Association.

Bob is working closely with the Devon School to ensure an effective and stimulating programme for each engineer. He will also provide direct teaching input as required.
